

Acoem **ECO** Pro

PRECISION SHAFT ALIGNMENT MADE SIMPLE

Acoem's tools optimize machine performance through precise shaft alignment.

An entry-level shaft alignment solution

Acoem **ECO** Pro

The ECO Pro Shaft Alignment System is a precision tool designed to streamline and enhance **shaft alignment** procedures. By combining advanced technology with a user-friendly interface, it offers unparalleled accuracy and efficiency.

Acoem ECO Pro toolpack - Automated alignment functions

Horizontal Shaft Alignment

Align two horizontally mounted machines (e.g., motor, pump) so their shafts rotate on the same axis.

Softcheck™

Softcheck™ detects uneven machine bases, preventing vibration and wear.

Vertizontal™

Automatically calculates the exact shim adjustments needed for perfect machine alignment, saving time and ensuring accuracy.

Resume function

A powerful feature that lets you seamlessly resume work after an unexpected power outage.

Memory Manager

Measurements can be organized into folders and subfolders, with data easily copied to a USB stick

Screen Flip

Adjust the display to match your exact viewpoint, ensuring you see the machine as you do.

Acoem M6/S6 sensors

Renowned for their accuracy and precision. When pre-mounted in their protective cases, installation becomes a breeze, saving time and effort. Backed by Acoem's lifetime warranty, these sensors offer unparalleled reliability and durability.

- **Integrated Bluetooth™** for wireless communication.
- **20 mm CCD detectors** handle up to 3 m distances and misalignment.
- **Thinnest smart sensors available.**
- **Dual inclinometers** enable backlash detection and angular measurements.
- **Battery Check:** Current status.

Acoem ECO Pro DU

Packed with advanced features and our intuitive GuideU™ user interface. Its eco-optimized assembly process minimizes environmental impact, while the lifetime warranty guarantees durability. Elevate your efficiency with cutting-edge functionality and user-friendly design.

- **Bluetooth™ Connectivity:** Wireless communication with smart sensors.
- **5" Touch Screen:** Industrial-strength, compact, and durable.
- **IP65 Rating:** Sealed, rubberized frame for dust and water resistance.
- **Battery Check:** Real-time status.

GuideU™

GuideU™ is the next generation of 3D shaft alignment graphical user interface – our patented, customizable, icon-driven and color-coded display system makes measuring, aligning, documenting and reporting on each job simple.

GuideU™ delivers precise measurement and correction values by minimizing the risk of human errors, guiding the operator through the process using visual, logical and easy-to-follow steps.

TrueLive™

Leveraging dual smart sensors, the ECO Pro offers real-time, accurate shaft position monitoring. Laser beams track both shafts simultaneously, eliminating uncertainty and ensuring uninterrupted position data, even if the beam is momentarily interrupted or the machine moves out of range.

Technical specification Acoem ECO Pro

Display Unit	
Weight:	362 g (12,8 oz)
Dimensions:	103 x 181 x 29 mm /4,0 in x 7,1 in x 1,1 in
Environmental protection:	IP 65
Display size:	5" (127 mm) diagonal/ (111 x 63 mm/4,4 x 2,5 in)
Operating time:	8 hours continuous use
TD UNITS	
Weight:	M6 200 g (7,1 oz) S6 188 g (6,6 oz)
Dimensions:	86mm x 77mm x 33mm (3,4" x 3,0" x 1,3")
Environmental Protection:	IP 65
Measurement Distance:	Up to 3 m
Detector:	Digital line sensor
Detector Length:	20 mm (0.8 in)
Displayed Resolution:	0,01 mm
Measurement Accuracy:	1% ± 1 digit
Shaft Brackets	
Shaft diameter:	Ø 25 – 175 mm (1in – 6.9in)
Rods:	4 pcs 150 mm (5,9 in)

Lifetime Warranty

Our shaft alignment products are built to last. Invest with confidence knowing your equipment is backed by a lifetime warranty.

What`s included:

- 1 pce DU ECO Pro
- 1 pce M6 sensor
- 1 pce S6 sensor
- 2 pcs V-bracket complete with chain
- 1 pce Tape measure 5 m
- 1 pce Power Supply 4 USB-port 5 VDC
- 2 pcs Universal tool
- 3 pcs USB-cable A-mini B 2 m
- 1 pce Waterproof case
- 1 pce Quick-Guide

About Acoem

As a pioneer in industrial measurement technology, Acoem offers a comprehensive range of products, including advanced shaft alignment tools. Our solutions empower businesses to achieve maximum efficiency and reliability. **Acoem links possibilities with protection.**
